

"OPEN SCIENCE" COURSE - FINAL SEMINAR  
DIGITAL HUMANITIES AND DIGITAL KNOWLEDGE (DHDK)

# OPEN SCIENCE IS HERE TO STAY

**Why do we need Open Science? How does it work? What can you do starting tomorrow to open up the steps of your research?**

During this workshop, we shall try to answer these (and more) questions, to overcome common misunderstandings on Open Access, Open Science and FAIR data, and we shall discuss the future of research in the EOSC - European Open Science Cloud era.

**27 April 2022, h. 13-15**

Aula Affreschi, via Zamboni 34
